

CASH TESTER

CC 603

The quickest coin counter and sorter in its range!

The **CC 603** reliably sorts and counts at an revolutionary speed of 400 coins per minute. Especially in retail environments where just a few registers have to be counted, this model saves you a lot of time!.

After the counting the **CC 603** shows you a full report of all counted coins (quantity and value) and a batch stop can be programmed per denomination.

A reliable coin counter/sorter for the self-employed entrepreneur: the **CC 603** saves you time and money!
